

# WHEAT SHEET™

- Wheat Sheet™ copy paper is manufactured using the residue waste of wheat straw. Converting to Wheat Sheet™ copy paper promotes the preservation of global forests and vital ecosystems
- Wheat Sheet™ copy paper looks, performs, and is completely recyclable just like traditional paper
- Wheat Sheet™ is competitively priced with recycled papers. No need to sacrifice paper performance, quality, or pay a premium for sustainability
- Wheat Sheet™ is *the copy paper of choice* by leading Canadian companies, municipal, provincial and federal governments, colleges, universities, environmental organizations, and small to medium size business across Canada.

**Paper that supports your commitment to sustainable practices**

Choosing Wheat Sheet™ paper for your copiers and printers will save one tree for every 2 boxes used.
