SOCIAL PRINT PAPER™

2023 Sustainable Development Goals Report

FOREWARD

Five years ago, the United Nations Sustainable Development Goals (SDGs) set an ambitious target to achieve a sustainable and fair future for people worldwide by 2030. With only 7 years left, we all need to ramp up our efforts.

The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth - all while tackling climate change and working to preserve our oceans and forests.

Now, more than ever, we need alternative solutions.

Social Print Paper is deeply committed to contributing to this critical global effort, both through actions within our organization and through our unique strengths to make the targets set by the UN SDGs a reality. We aim to do this by enabling government and Industry to print sustainably.

Social Print Paper has identified 3 focus goals that we believe allow us to create maximum positive impact. Here's how Sugar Sheet copy paper supports our 3 focus goals:

#15 Life on Land
Sugar Sheet copy paper is made from recycled sugar cane fibre preserving forests, ecosystems, and animal habitats.

#13 Climate Action
Sugar Sheet copy paper has one of the lowest carbon footprints in the world, as outlined in the Sugar Sheet Environmental Performance Report, and is now carbon neutral, mitigating it's climate change impacts.
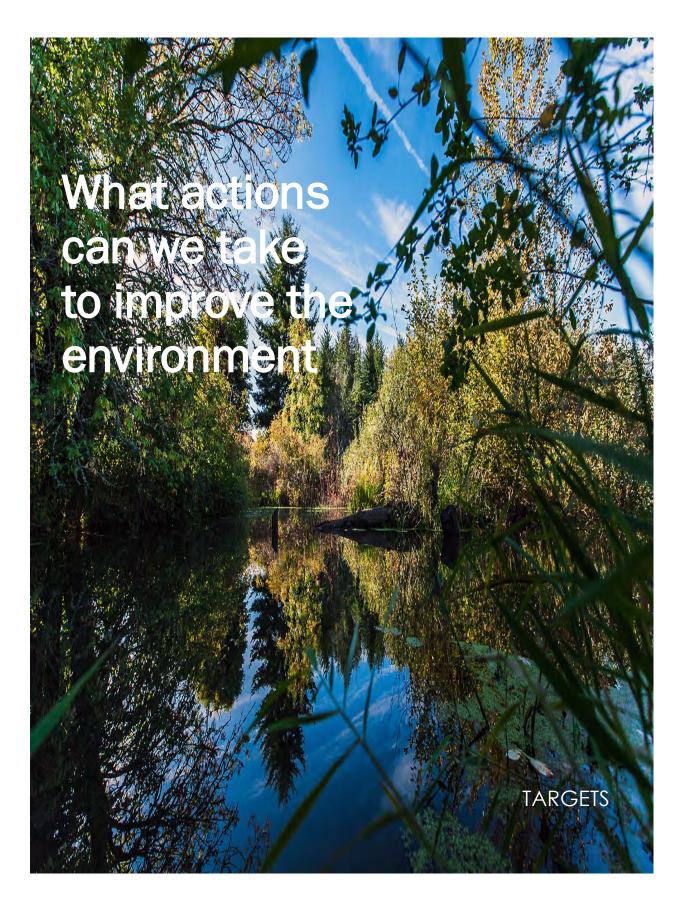

#12 Responsible Consumption and Production
Social Print Paper supports customer and stakeholder communities advancing ESG and net-zero policies.

What actions
can we take
to improve the
environment

TARGETS

OUR TARGETS

From our 3 goals come 6 targets. These measurable data points provide a framework and focus for Social Print Paper to use as the guideposts going forward, and they act as a means of communicating our results to our customers.

Goal #15 Life on Land

Target 15.2
Promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally

Target 15.5
Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity, and protect and prevent the extinction of threatened species

Goal #13 Climate Action

Target 13.0
Take urgent action to combat climate change and its impacts

Goal #12 Responsible Consumption and Production

Target 12.5
Substantially reduce waste generation through prevention, reduction, recycling and reuse

Target 12.6
Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle

Target 12.7
Promote public procurement practices that are sustainable, in accordance with national policies and priorities

Our results are recorded in the Sustainable Development Contributions Table on the following page. We are just beginning our journey with SDG's so our contributions are limited in this report, however going forward we are excited to watch our efforts grow and accumulate.

Table 1 : Sustainable Development Contributions

Row number	SDG Target #	SDG Target Description	Net Impact on SDG Target	Current Project Contributions	Contributions Over Project Lifetime
Sequential row number	*SDG Target number*	*SDG target description*	*The project's contribution to the SDG target (activities to increase or decrease)*	*Brief description of the quantifiable impact of the project's activities related to the SDG target, during the project SDG contributions reporting period.*	*Brief description of the cumulative quantifiable impact of the project's activities related to the SDG target, over the project lifetime.*
1)	15.2	Promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally	Activities to increase	Waiting for the completion of 2023 (our first SDG reporting period)	Waiting for the completion of 2023 (our first SDG reporting period)
2)	15.5	Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity, and protect and prevent the extinction of threatened species	Activities to decrease	Waiting for the completion of 2023 (our first SDG reporting period)	Waiting for the completion of 2023 (our first SDG reporting period)

3)	13.0	Take urgent action to combat climate change and its impacts	Activities to decrease	Waiting for the completion of 2023 (our first SDG reporting period)	Waiting for the completion of 2023 (our first SDG reporting period)
4)	12.5	Substantially reduce waste generation through prevention, reduction, recycling and reuse	Activities to decrease	Waiting for the completion of 2023 (our first SDG reporting period)	Waiting for the completion of 2023 (our first SDG reporting period)
5)	12.6	Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle	Activities to increase	Waiting for the completion of 2023 (our first SDG reporting period)	Waiting for the completion of 2023 (our first SDG reporting period)
6)	12.7	Promote public procurement practices that are sustainable, in accordance with national policies and priorities	Activities to increase	Waiting for the completion of 2023 (our first SDG reporting period)	Waiting for the completion of 2023 (our first SDG reporting period)
